

## TRIS Catat Pertumbuhan Ekspor Pada Kuartal II-2021

*Produk TRIS Didukung Proses Lingkungan Keberlanjutan*

**Jakarta, 10 Agustus 2021 - PT Trisula International Tbk (“TRIS”),** emiten *integrated apparel provider* yang bergerak di bidang tekstil dan garmen, memperoleh pertumbuhan ekspor pada Kuartal II-2021. Hal ini dikarenakan TRIS dengan pengalaman lebih dari lima puluh tahun ini sudah mendapatkan kepercayaan dari para pelanggannya. Oleh karena itu, di masa pandemi Covid-19 ini TRIS masih mendapatkan pesanan untuk berbagai produk garmen. Pada Kuartal II-2021, TRIS berhasil mendapatkan kenaikan ekspor sebesar 39,9% QoQ dibandingkan dengan Kuartal I-2021.

**Santoso Widjojo** selaku **Direktur Utama TRIS** menjelaskan, “Di masa penuh tantangan ini kami bersyukur bisa melaluinya dengan baik dan masih mendapatkan kepercayaan dari pelanggan kami sehingga TRIS berhasil mendapatkan kenaikan ekspor pada Kuartal II-2021 dibandingkan dengan Kuartal I-2021. Adapun pasar ekspor kami sudah menjangkau Australia, Eropa, Inggris, dan Singapura dengan pasar ekspor terbesar ke Amerika Serikat dan Australia. Kami berharap kondisi pandemi segera pulih sehingga berbagai kegiatan bisa berjalan dengan normal kembali.”

Pada Kuartal II-2021, TRIS juga mengalami pertumbuhan pada laba usaha menjadi sebesar Rp9,4 miliar atau naik 31,1% QoQ

## TRIS Records Export Growth in the Second Quarter of 2021

*TRIS Products Are Supported by Environmental Sustainability Processes*

**Jakarta, August 10, 2021 - PT Trisula International Tbk (“TRIS”),** a publicly listed *integrated apparel provider*, engaged in the textile and garment sectors, achieved export growth in the Second Quarter of 2021. This is due to TRIS, with more than fifty years of experience, having won the trust of its customers. Therefore, during the Covid-19 pandemic, TRIS has maintained orders for various garment products. In the Second Quarter of 2021, TRIS managed to increase its exports by 39.9% QoQ compared to the First Quarter of 2021.

**Santoso Widjojo** as **President Director of TRIS** explained, “In this challenging time, we are grateful that we were able to get through it well and still gain the trust of our customers so much so that TRIS managed to get an increase in exports in the Second Quarter of 2021 compared to the First Quarter of 2021. As for our export markets, we have reached Australia, Europe, the UK, and Singapore with the largest export markets being the United States and Australia. We expect that the pandemic condition will recover soon so that various activities can run normally again.”

In the Second Quarter of 2021, TRIS also had a growth in operating profit to IDR9.4 billion or an increase of 31.1% QoQ compared to the

dibandingkan Kuartal I-2021. Meskipun penjualan TRIS sedikit terkoreksi pada Kuartal II-2021 menjadi sebesar Rp255,0 miliar dibandingkan dengan Kuartal I-2021 sebesar Rp256,5 miliar. Adapun untuk kontribusi ekspor dan domestik pada Kuartal II-2021 pembagiannya adalah 69,2% ekspor dan 30,8% domestik.

Seiring fokus pada kinerja, TRIS juga terus meningkatkan prinsip *Environmental, Social, & Governance* (ESG) dalam proses produksinya. Langkah ini diambil menyesuaikan tren ekonomi hijau yang tengah diprogramkan oleh Pemerintah dan kecenderungan konsumen masa kini yang lebih memilih produk hasil program *sustainability*. “TRIS berkomitmen untuk memperhatikan aspek 3P (People, Planet, Profit), yaitu selain menciptakan keuntungan dan kesejahteraan bagi karyawan, kami juga selalu memperhatikan lingkungan sekitar dengan fokus pada setiap proses produksi yang lebih *sustainable*,” jelas **Santoso**.

Saat ini sebagai bagian dari proses produksi divisi industri garmen, TRIS memakai energi ramah lingkungan dengan menggunakan CNG (Compressed Natural Gas) sebagai bahan bakar pengganti solar pada penggunaan *boiler* (mesin uap) sehingga hasil pembakarannya menjadi lebih bersih dengan pengeluaran CO<sub>2</sub> yang jauh lebih rendah dibandingkan bahan bakar biasa.

Upaya lainnya, TRIS mengganti lampu biasa menjadi lampu LED yang lebih hemat listrik tanpa mengesampingkan kualitas pencahayaan. Serta, selalu melakukan pemeriksaan berkala atas semua mesin dan

First Quarter of 2021. Although TRIS sales were slightly corrected in the Second Quarter of 2021 to IDR255.0 billion compared to the First Quarter of 2021 at IDR256.5 billion. As for the export and domestic contribution in the Second Quarter of 2021, the distribution was 69.2% for exports and 30.8% for domestic.

Along with focusing on performance, TRIS also continues to improve the principles of Environmental, Social, & Governance (ESG) in its production processes. This step was taken to implement the green economy trend, which is being programmed by the Government as well as today’s consumers’ preference towards sustainability programs. “TRIS is committed to paying attention to the 3P (People, Planet, Profit) aspect, which in addition to creating profit and welfare for employees, we also always pay attention to the surrounding environment by focusing on every production process that is more sustainable,” **Santoso** explained.

Currently, as part of the garment industry division’s production process, TRIS uses environmentally friendly energy by using CNG (Compressed Natural Gas) as a substitute for diesel fuel in boilers (steam engines) so the combustion results are cleaner with much lower CO<sub>2</sub> expenditure compared to ordinary fuel.

As an additional effort, TRIS replaces ordinary lamps with LED lamps that are more energy efficient without compromising lighting quality. Also, periodic inspections are always performed on all production machines and

peralatan produksi untuk menghindari kebocoran penggunaan energi. “Ke depannya, TRIS akan terus mencari peluang di masa penuh tantangan ini. Diharapkan pandemi segera pulih dan TRIS bisa meraih kinerja yang baik untuk ekspor maupun domestik, seiring dengan terus meningkatkan prinsip *sustainability*,” tutup **Santoso**.
